

Miller Edge Transmitter Installation Instructions

(Models MWT02 and MWTA02)

Read the following instructions thoroughly before using the transmitter.

This transmitter must be adjusted so that the coding switches match the coding switches on your present operating transmitters or receiver.

FCC Regulation: This device complies with FCC Rules Part 15. Operation is subject to the following two conditions: 1) This device may not cause harmful interference. 2) This device must accept an interference that may cause an undesired operation. Transmitter distance may vary due to circumstances beyond our control.

Setting the Code for the Single Entry Transmitter (Models MWT02 and MWTA02)

You may set your transmitter to any code you desire, but be sure the code you set matches on both your transmitter and receiver. There are nine (9) dip switches, each of which can be placed in three different positions (+,0,-).

DO NOT set all switches in the same position, such as all +, all -, or all zero (**Figure A**).

Figure A

WARNING: No other adjustments should be made inside the transmitter. Now that you have selected your personal code, replace the transmitter cover.

* Mount transmitter box directly to gate post or door. Use only mounting holes provided, any additional holes in transmitter box may cause water to enter and loss of warranty.
